Keynote Speaker

Kardell Sims | *From Incarceration to Inspiration*

Kardell Sims is a testament to the power of transformation and the importance of second chances. Growing up on the Northside of Sedalia, Missouri, Kardell experienced firsthand the challenges of racial segregation, community decay, and the devastating impact of the crack

epidemic. His early life was marked by a cycle of incarceration that lasted from age 15 to 39, including multiple stays in juvenile detention, foster homes, county jails, treatment facilities, state prisons, and federal prison.

However, during his final federal prison sentence, Kardell made a pivotal decision to change his life's trajectory. Through sheer determination, careful planning, and a significant mindset shift, he broke free from the cycle of recidivism that had defined his past.

Today, Kardell is an accomplished entrepreneur, author, and one of the emerging leaders in the field of reentry. He is the founder of **On the Inside Reentry Academy** and the driving force behind the **On the Inside Empowerment Workshop Tour**, which has visited over 20 institutions across 8 states, providing full-day workshops featuring successful formerly incarcerated educators and correctional educators.

Kardell is also the host of **The Reentry Journey Podcast**, where he shares valuable insights and stories to inspire and guide others on their journey

to successful reintegration. His expertise as a Reentry Consultant, Master Certified Empowerment Life Coach, and Reentry Peer Support Specialist has made him a sought-after voice in the field of criminal justice reform and rehabilitation.

As a 9-time author and national speaker, Kardell uses his platform to advocate for better programming inside prisons, emphasizing that successful reentry begins long before release. His mantra, "*Reentry Starts on the Inside of Prison and Self*", underscores his belief in the power of personal transformation and preparation.

Kardell's entrepreneurial spirit has led him to establish two businesses: **Kardell Sims Enterprises LLC**, a for-profit venture, and **N.O.R.T.H Org**, a non-profit organization dedicated to supporting individuals in their reentry journey.

Through his work, Kardell passionately pushes for comprehensive, effective programming within correctional facilities. He believes that by addressing trauma, providing education, and fostering personal growth during incarceration, we can significantly reduce recidivism rates and help individuals successfully reintegrate into society.

Kardell Sims' journey from a troubled youth to a beacon of hope for others is a powerful reminder of the potential for change that exists within every individual, regardless of their past. His work continues to inspire and empower those navigating the challenging path of reentry, proving that with the right mindset, support, and preparation, a new life is possible.

MVE | Virtual Tour

Jefferson City Correctional Center,
Jefferson City, Missouri

Jefferson City Correctional Center (JCCC) is located just miles away from the historic Missouri State Capitol, in Jefferson City. JCCC opened in September 2004 and is located on a sprawling 42 acres. This facility houses approximately 1,800 residents and is a medium/maximum security camp.

In addition to correctional industries, JCCC has several programs in place to help our residents prepare themselves to be productive citizens upon release. Some of these programs include the HiSet Program, Restorative Justice, Intensive Therapeutic Community, Jeftown Productions (video team), Center for Braille and Narration Production, and Puppies for Parole.

Missouri Vocational Enterprises (MVE) proudly employs 258 resident workers through several correctional industries located within JCCC. Industries include furniture, engraving, sign shop, graphic arts, cartridge recycling, license plates, and clothing. Our resident workers are perceived as an extension of MVE's mission for training today for a successful tomorrow. The residents can gain valuable knowledge, skills, and training that they can apply once placed back into our communities throughout the state and the country.

Our largest industries located inside of JCCC are easily the clothing, license plates, and the furniture factories. The clothing factory boasts embroidery, screen printing, and several product lines ranging from officer clothing to resident clothing. The clothing factory produces the majority of softline items that are distributed around the state.

Step inside MVE's furniture factory, and a warm, freshly cut wood scent greets you. Sawdust peppers the floor as resident workers cut, measure, stain, seal, and create heirloom quality furniture. Finished furniture products span all over the state – from the Governor's Mansion to college campuses, and firehouses. MVE's license plate factory pumps out 2.5 million license plates each year. This factory produces standard embossed license plates, specialty flat plates, city and county plates, and custom created plates for gifts. Without virtually any slow periods, the license plate factory runs at full speed five days a week, all year long.

The sign shop creates everything from basic street signs to National Park signs! In fact, most of Missouri's street signs are made right here, in our humble factory.

Graphic arts is a unique, and complimentary piece to the sign shop and license plate factories. Here, our resident workers create stickers (including diecuts), labels, graphic design, custom license plate designs, and more!

Our most unique factory at JCCC is engraving! This factory boasts leather work, stained glass, art works in various forms, wood working, laser engraving, braille signs, framing, and so much more! This factory is chock-full of creativity and productivity. These residents are truly artisans!

At MVE, we are very proud of all the workers in our JCCC factory complex. Our resident workers are dedicated to earning their DOL Apprenticeships while providing high quality product, and services, to the end users. We appreciate you allowing us the opportunity to proudly share our MVE JCCC factories with you.

MEET SOPHIA BROWN, A CALPIA SUCCESS STORY

“**CALPIA gave me my start in my career.**

I was in and out of prison for about 25 years and it was my time in the Dental Lab where I learned valuable job skills, a great work ethic, and how to provide for myself and my family. I have been home now for almost a decade, and I love giving back and encouraging others.

- SOPHIA BROWN

SOPHIA BROWN earned certifications through CALPIA's Dental program at the Central California Women's Facility. She worked for CALPIA for four years and also served time at the California Institution for Women and at a fire camp. Sophia returned to her community in 2015 and was able to work in a private dental lab in Rialto, California. She attended college and decided to pursue her passion to help others succeed. She is now the Reentry Case Coordinator for the Inland SoCal United Way which supports people with education, health, and financial stability. Sophia is married and has four children, eight grandchildren, and one great grandchild.
